The main purpose behind celebrating “vanmahotsav” is to encouraging Indians to support tree planting and tending, festival organizers hope to create more forests in the country. It would provide alternative fuels, increase production of food resources, create shelter-belts around fields to increase productivity, provide food and shade for cattle, offer shade and decorative landscapes, reduce drought, and help to prevent soil erosion. The first week of July is just the right time for planting trees in most parts of India since it coincides with the monsoon.
